Installation and Update Guide

For Moodle users from versions 4.0 to 4.4, download the respective Edwiser RemUI zip files:

- **Moodle Versions 4.2. - 4.4**: Download Edwiser RemUI 4.4.x.
- **Moodle Versions 4.0 - 4.1:** Download Edwiser RemUI 4.0.x and 4.1.x respectively.

Step 1: Extract the downloaded main zip file.

- Edwiser RemUI 4.0 and above contains three files:
    - Edwiser RemUI theme
    - Edwiser RemUI Course Format
    - Edwiser Site Importer.
    - Edwiser Page Builder
    - Edwiser Advance Block
    - Edwiser Page Builder Filter
    - Edwiser Rating and review

You must install all seven zip files on your Moodle site.

Step 2) Take backup of your Moodle instance.

Step 3) Head to your Moodle website

Step 4) Go to "Plugins"

Step 5) Click on "Install Plugins"

Step 6) You need to install all the files one by one to successfully update your theme to the latest version.

Note: It is mandatory to update the theme file first and then update the rest of the files on your end.

If you are installing the plugins using FTP then the extracted zip folder should be copy pasted to these locations:

- Edwiser RemUI theme will go to Moodle directory/theme/
- Edwiser RemUI Course Format plugin will go to Moodle directory/course/format/
- Edwiser Site Importer will go to Moodle directory/local/
- Edwiser Advance Block will go to Moodle directory/blocks/
- Edwiser Page Builder will go to Moodle directory/local/
- Edwiser Page Builder Filter will go to Moodle directory /filter/ (Filter_edwiserpbf.zip)
- Edwiser Ratings and Review Block will go to Moodle directory /blocks/
